Specialty	3D Hyperrotation armrests provide a wide range of motion, supporting various arm positions, while the headrest adjusts for personalized comfort. Precisely tunable backrest height, lumbar support, and seat depth allow you to fine-tune the chair to your exact anthropometry for maximum ergonomic benefit. The Speeders tilter automatically modulates the speed and resistance of recline to body weight without needing manual operation, absorbing impact from sudden movement for a smoother and more controlled backwards shift. All you have to do is lean back, and lock in your recline angle within a 45 Degree range with the easily accessible control switch.
