Feature	<p>REAL-TIME CPU STATUS SCREEN (The status screen displays the power consumption, temperature, and usage of your system's CPU in real time. A high temperature warning indicator will flash when the CPU temperature exceeds the 85 degree C mark), 5 PRO GENERATION PUMP (Built on DeepCool's optimized 5 PRO generation high-performance water pump, the LD240 WH brings cooling modern power-hungry CPUs to the next level), LARGE DISPLAY WITH ARGB HALOS (The large multiple data points display of the LD series is unmistakable, but the LD coolers also utilize a bright gradient ARGB double halo effect that encapsulates the premium aesthetics of the LD pump design: beautifully bright as well as being functional. The ARGB of the entire cooler can be easily synced to ARGB headers on compatible motherboards), FINE TUNED FD12 ARGB WH FANS (Optimized FD12 ARGB WH PWM fans are included with the LD240 WH and have been fine-tuned to provide excellent cooling performance with a long-life Hydro Bearing. The LD240 WH includes two of these specialized FD12 fans, which have an easy-to-manage 8-pin cable that can be chained to each of the FD fans), KEEPING IT SIMPLE (Full control of the real-time status screen is provided via a simple-to-use application. Once installed, the entire application is found in the Notification Center of the taskbar, where you can switch between languages and choose between Celsius and Fahrenheit. The only interface that will be required is a connection to a USB 2.0 header on the motherboard), SLEEK, CLEAN, AND STRONG (The large glass status screen, gradient ARGB halos, and a cool white finish add the finishing touch), ANTI-LEAK TECHNOLOGY (The LD liquid coolers feature DeepCool's patented Anti-Leak Technology. The internal valve regulates pressure and will purge it when internal pressure exceeds atmospheric pressure; this leads to a longer useful life while reducing the possibility of leaks), QUICK AND EASY (The included mounting hardware provides an easy installation process that ensures proper contact and equal pressure on both Intel and AMD platforms. Everything needed to mount the LD to the latest mainstream CPUs is included in the box, so you are ready to go).</p>
