Others

Specifically designed for vloggers and online content creators, the Sony ZV-1F Vlogging Camera is a pocket-sized camera with a large 1" sensor and a 20mm-equivalent wide-angle lens. The camera allows you to snap a group selfie with an expansive view of the background scenery and get everything in the frame, even at arm's length. The lens captures a wider field of view than the human eye, enabling you to take images with eye-popping depth and perspective both indoors and outdoors. Small and lightweight, the camera is meant to be taken out and about so you can capture everyday life with ease and grab content on the go. Featuring a flip-out 3.0" touchscreen and a directional 3-capsule microphone perfect for front-facing recording, the ZV-1F also caters to those who appreciate the camera's unique Product Showcase setting, background Defocus function, real-time Eye AF (autofocus), Face Priority AE (auto-exposure), plus a new touchscreen interface, making it easier to use.
